16. The Explanatory Statement setting out material facts, pursuant to Section 102 of the Companies Act, 2013 ("the Act") and as required under Secretarial Standard - 2 on General Meetings issued by The Institute of Company Secretaries of India and Regulation 36 of the Securities and Exchange Board of India (Listing Obligations and Disclosure Requirements) Regulations, 2015 ("SEBI Listing Regulations") in respect of Special Business under Item Nos. 6 to 7 of the accompanying Notice is annexed hereto.
17. Statement giving details of the Directors seeking re-appointment is also annexed with this Notice pursuant to the requirement of Regulation 36(3) of the SEBI Listing Regulations and Secretarial Standard on General Meeting ("SS-2").
18. Pursuant to SEBI Circular no .SEBI/HO/MIRSD/ MIRSDPoD-1/P/ CIR/2023/37 dated March 16, 2023, issued in suppression of earlier circulars issued by SEBI bearing nos. SEBI/HO/MIRSD/MIRSD RTAMB /P/CIR/2021/655 and SEBI/HO/MIRSD/ MIRSDRTAMB/P/CIR/2021/687 dated November 3, 2021 and December 14, 2021, respectively, SEBI has mandated all listed companies to record PAN, Nomination, Contact details, Bank A/c details and Specimen signature for their corresponding folio numbers of holders of physical securities. The folios wherein any one of the cited documents/details is not available on or after October 1, 2023, shall be frozen by the RTA.

The securities in the frozen folios shall be eligible:

- i) To lodge any grievance or avail of any service, only after furnishing the complete documents / details as mentioned above;
- ii) To receive any payment including dividend, interest or redemption amount (which would be only through electronic mode) only after they comply with the above stated requirements.

The forms for updation of PAN, KYC, bank details and Nomination viz., Forms ISR-1, ISR-2, ISR-3, SH-13 and the said SEBI circular are available on our website <https://skycorp.in/downloads/> In view of the above, we urge Members holding shares in physical form to submit the required forms along with the supporting documents at the earliest.

The Company has dispatched a letter to the Members holding shares in physical form in relation to the above referred SEBI Circular. Members who hold shares in dematerialised form and wish to update their PAN, KYC, Bank details and Nomination, are requested to contact their respective DPs.

Further, Shareholders holding shares in physical form are requested to ensure that their PAN is linked to Aadhaar to avoid freezing of folios. Such frozen folios shall be referred by RTA/Company to the administering authority under the Benami Transactions (Prohibitions) Act, 1988 and/or Prevention of Money Laundering Act, 2002, after December 31, 2025.

19. Members may please note that SEBI vide its Circular No. SEBI/HO/MIRSD/MIRSD_RTAMB/P/CIR/2022/8 dated January 25, 2022 has mandated the Listed Companies to issue securities in demat form only while processing service requests viz. MANAGEMENT DISCUSSION & ANALYSIS REPORT

MANAGEMENT DISCUSSION AND ANALYSIS

Sky Industries Limited ("Company"), established in 1989, is one of the leading pioneers in the fields of technical textiles. A Global Player, your Company provides Innovative and customized solutions to the customers for their fastening requirements. The Industry caters to many large Industries like Footwear, Orthopaedic, PPE, Garment, Sportswear, Packaging, Aviation, Automobile, and Defence. Your Company has streamlined its manufacturing units at Vashi and Bhiwandi both in the State of Maharashtra, India.

The Company not only serves the domestic market but exports its products to international market as well. The Company has a strong presence in key markets, such as USA, Europe, Turkey, Bangladesh etc. Presently over 13% of Companies revenue is derived from exports to various countries across the globe.

INDUSTRY STRUCTURE AND DEVELOPMENTS

Global Economic Outlook:

Amid continuing uncertainty for policy-makers, businesses and households as persistent headwinds buffet the global economy, the global economy is in uncertain territory. While there are signs of nascent optimism, the banking disruption of March 2023 has caused tremors in the global outlook. The expectations around a potential global recession in 2023 are a case in point: most experts expect a recession is likely, but the same proportion considers it unlikely. Regionally, there has been a notable strengthening of expectations for most economies since last quarter. Perhaps unsurprisingly, the most buoyant economic activity is expected in Asia, with China's reopening projected to bolster activity across the continent. For China itself, chief economists are near unanimous in expecting a significant rebound this year. At the other end of the spectrum, one expects weak or very weak growth this year in Europe, while for the US, views are divergent as the country's growth prospects are clouded by heightened uncertainty around financial stability and the pace and extent of monetary tightening.

Headline rates have begun to ease, but core inflation is stickier than anticipated and shows signs of picking up. The pressure on many households remains acute, and the cost of living to stay at crisis levels in numerous countries throughout 2023. The recent banking instability has complicated efforts to deal with runaway prices. The central banks now face a trade-off between managing inflation and maintaining financial sector stability. A similar proportion expect central banks to struggle to

reach their inflation target. The effects include a squeeze on the flow of credit to businesses and the prospect of significant disruption in property markets in particular. Turning to broader structural shifts in the global economy, one can expect assertive industrial policy to become increasingly widespread over the next three years. Needless to say, it will deepen geo-economic tensions (91%), stifle competition (70%) and lead to a problematic increase in sovereign debt levels (68%). Industrial policy is also expected to contribute to ongoing changes in the geography and composition of the global economy.

Indian Economy Outlook:

India's growth continues to be resilient despite some signs of moderation in growth. World bank in its economic outlook report notes that although significant challenges remain in the global environment, India was one of the fastest growing economies in the world. The overall growth remains robust and is estimated to be 6.9 percent for the full year with real GDP growing 7.7 percent year-on-year during the first three quarters of fiscal year 2022-23. There were some signs of moderation in the second half of FY 22-23. Growth was underpinned by strong investment activity bolstered by the government's capex push and buoyant private consumption, particularly among higher income earners. Inflation remained high, averaging around 6.7 percent in FY22-23 but the current-account deficit narrowed in Q3 on the back of strong growth in service exports and easing global commodity prices.

The World Bank has revised its FY 23-24 GDP forecast to 6.3 percent from 6.6 percent (December 2022). Growth is expected to be constrained by slower consumption growth and challenging external conditions. Rising borrowing costs and slower income growth will weigh on private consumption growth, and government consumption is projected to grow at a slower pace due to the withdrawal of pandemic-related fiscal support measures.

Notwithstanding external pressures, "India's service exports have continued to increase, and the current-account deficit is narrowing."

Although headline inflation is elevated, it is projected to decline to an average of 5.2 percent in FY23-24, amid easing global commodity prices and some moderation in domestic demand. The Reserve Bank of India's has withdrawn accommodative measures to rein in inflation by hiking the policy interest rate. India's financial sector also remains strong, buoyed by improvements in asset quality and robust private-sector credit growth.

The central government is likely to meet its fiscal deficit target of 5.9 percent of GDP in FY23-24 and combined with consolidation in state government deficits, the general government deficit is also projected to decline. As a result, the debt-to-GDP ratio is projected to stabilize. On the external front, the current account deficit is projected to narrow to 2.1 percent of GDP from an estimated 3 percent in FY22-23 on the back of robust service exports and a narrowing merchandise trade deficit.

However, recent developments from Europe and US are expected to have some spill over effects in the shorter term.

COMPANY REVIEW

The Company consolidated its footprint in the export markets of Europe and USA. Apart from the same, the domestic front showed a sublime growth of about 7% over previous financial year. The Company also clocked revenues of Rs. 74.92 Crore in year 2022-23 vis-a-vis Rs. 70.45 Crore in previous year. The Company also utilized its capacity in a better way.

The EBIDTA showed a downward trend owing to increase in Freight Costs, Exchange Rate and higher input costs during the year 22-23.

OPPORTUNITIES AND THREATS

Opportunities

- With India's urbanisation, demand for footwear, sportswear, orthopaedic belts, medical equipment's is rising.
- Following the outbreak of the COVID-19 pandemic, increasing awareness of health, safety and comfort in the medical and orthopaedic industry.
- The potential factor that it is an emerging industry in India and many Multinational Companies are interested in this field to work with Indian Companies.
- The Company would be looking to expand its facilities in next 2/3 years and capitalise on the trend by focussing on the exports and value-added products.
- The Indian government has permitted 100 per cent FDI in the Textile sector through automatic route.

Threats

- The threat of cheaper imports influences local manufacturers and domestic output.
- The technical textiles industry is continually altering in response to the needs of end-users, making it difficult for businesses to retain consumers.

SEGMENT-WISE PERFORMANCE

The Company has one segment of activity namely "Fastening solutions under the broader category of Narrow Woven Fabrics". Hence, Accounting Standard on Segment Reporting (AS - 17) issued by The Institute of Chartered Accountant of India does not apply.

The Company has performed well with sustained margins notwithstanding rise in input costs. The Company has absorbed cost increases and yet improved margins with purchasing efficiencies, improvement in manufacturing yield/usage and overall expenditure control.

OUTLOOK

India's Gross Domestic Product (GDP) is expected to grow at 6% in the financial year 2024 as compared to the previous year. With continued volatility in crude oil prices, supply chain disruptions, a global recession, and high energy prices, it is anticipated that these conditions will last longer in 2023-2024.

We are making significant progress in our operations around digitisation and sustainability by adopting new and innovative technologies. Our team continues to adopt a lean manufacturing strategy on a long-term horizon, focusing continuously on building value-added products. The emphasis on innovation continues to drive our 'Zero Defect Strategies' with attention on best-in-class productivity.

The Company has laid out its new vision to be the future of narrow woven fabrics. This entails exploring emerging opportunities, while continuing to excel in the core segments the Company operates in. Also, the Company has increased its focus on customised and value-added offerings which are expected to bolster Company's position vis a vis its peers.

Key Strategic Highlights:

- Growth in the Narrow-Woven Fabrics Market
- New opportunities through collaboration/Marketing Arrangements
- New products, business models, etc.
- Margin enhancement
- Innovation and sustainability
- Investment opportunities

As a Company, Sky Industries Limited is optimistic about the future as well as its growth path. The Company is confident in its ability to grow its business organically enhancing the production by adopting new technologies.

The Company constantly looks at margin improvement and risk mitigation initiatives through specific projects and global support.

RISKS AND CONCERNS

FINANCIALS & AUDITORS REPORT

Independent Auditor's Report

To the Members of Sky Industries Limited

Report on the Audit of Financial Statements

Opinion

We have audited the accompanying financial statements of Sky Industries Limited ('the Company'), which comprise the Balance Sheet as at 31st March 2023, the Statement of Profit and Loss (including Other Comprehensive Income), Statement of Changes in Equity and statement of cash flows for the year then ended, and notes to financial statements, including a summary of the significant accounting policies and other explanatory information (hereinafter referred to as "the financial statements").

In our opinion and to the best of our information and according to the explanations given to us, the aforesaid financial statements give the information required by the Companies Act, 2013 ("the Act") in the manner so required and give a true and fair view in conformity with the Accounting Standards prescribed under section 133 on the Act read with the Companies (Indian Accounting Standards) Rules, 2015, as amended ("Ind AS"), and other accounting principles generally accepted in India, of the state of affairs of the Company as at March 31, 2023, and its profit, other comprehensive income, the changes in equity and its cash flows for the year ended on that date.

Basis for Opinion

We conducted our audit of the financial statements in accordance with the Standards on Auditing (SA's) specified under section 143(10) of the Act. Our responsibilities under those SA's are further described in the Auditor's Responsibility for the Audit of the Financial Statements section of our report. We are independent of the Company in accordance with the Code of Ethics issued by The Institute of Chartered Accountants of India (ICAI) together with the ethical requirements that are relevant to our audit of the financial statements under the provisions of the Act and the Rules made thereunder, and we have fulfilled our other ethical responsibilities in accordance with these requirements and the ICAI's Code of Ethics. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion on the financial statements.

Key Audit Matters

Key audit matters are those matters that, in our professional judgment, were of most significance in our audit of the financial statements of the current period. These matters were addressed in the context of our audit of the financial statements as a whole, and in forming our opinion thereon, and we do not provide a separate opinion on these matters. We have determined the matters described below to be the key audit matters to be communicated in our report.

Key Audit Matter	How the matter was addressed in our audit
Revenue Recognition Revenue from sale of goods is recognized when control of the products being sold is transferred to the customer and when there are no longer any unqualified obligations. The performance obligations in the contracts are fulfilled at the time of dispatch, delivery or upon formal customer acceptance depending on customer terms.	Our audit procedures included : <ul style="list-style-type: none">• We assessed the appropriateness of the revenue recognition accounting policies, including those relating to rebates and discounts by comparing with applicable accounting standards• We performed substantive testing by selecting samples of revenue transactions recorded during the year by verifying the underlying documents, which included goods dispatch notes and shipping documents

Key Audit Matter	How the matter was addressed in our audit
<p>Revenue is one of the key profit drivers and is therefore susceptible to misstatement. Year-end cut-off is the key assertion in so far as revenue recognition is concerned, since an inappropriate cut-off can result in material misstatement of results for the year.</p> <p>Revenue is measured at fair value of the consideration received or receivable, after the deduction of any trade discounts, volume rebates and any taxes or duties collected on behalf of the government such as goods and services tax, etc. Accumulated experience is used to estimate the provisions for discounts and rebates. Revenue is only recognized to the extent that it is highly probable a significant reversal will not occur.</p>	<ul style="list-style-type: none"> We performed cut-off testing for samples of revenue transactions recorded before and after the financial year end date by comparing with relevant underlying documentation, which included goods dispatch notes and shipping documents, to assess whether the revenue was recognized in the correct relevant period. We tested the design, implementation and operating effectiveness of controls over the calculations of discounts and rebates We assessed manual journals posted to revenue to identify unusual items.
<p>Provision for taxation and other significant provisions</p> <p>Accrual for tax and other contingencies requires the management to make judgements and estimates in relation to the issues and exposures arising from a range of matters relating to direct tax, indirect tax, claims and other eventualities arising in the regular course of business</p> <p>The key judgements lies in the estimations of the provisions where they may differ from the future obligations. By nature, provision is difficult to estimate and includes many variables.</p>	<p>Our audit procedures included :</p> <ul style="list-style-type: none"> We tested the effectiveness of controls around the recognition of provisions We used our subject matter experts to assess the value of material provisions in light of the nature of the exposures, applicable regulations and related correspondence with the authorities. We challenged the assumptions and critical judgements made by the management which impact their estimate of the provisions required, considering judgments previously made by the authorities in the relevant jurisdictions or any relevant opinions given by the Company's advisors and assessing whether there was an indication of management bias. We discussed the status in respect of significant provisions with the Company's internal tax team as well. We performed retrospective review of management judgements relating to accounting estimate included in the financial statement of prior year and compared with the outcome.

Information Other than the Financial Statements and Auditor's Report Thereon

The Company's management and Board of Directors are responsible for the other information. The other information comprises the information included in the Company's annual report, but does not include the financial statements and our auditor's report thereon.

Our opinion on the financial statements does not cover the other information and we do not and will not express any form of assurance conclusion thereon.

In connection with our audit of the financial statements, our responsibility is to read the other information and, in doing so, consider whether the other information is materially inconsistent with the financial statements or our knowledge obtained during the course of our audit or otherwise appears to be materially misstated. If, based on the work we have performed, we conclude that there is a material misstatement of this other information, we are required to report that fact. We have nothing to report in this regard.

When we read the Company's annual report, if we conclude that there is a material misstatement therein, we are required to communicate the matter to those charged with governance and take necessary actions, as applicable under the relevant laws and regulations.

Management's and Board of Director's Responsibilities for the Financial Statements

The Company's Management and Board of Directors are responsible for the matters stated in Section 134(5) of the Companies Act, 2013 ("the Act") with respect to the preparation and presentation of these financial statements that give a true and fair view of the financial position, financial performance including other comprehensive income, cash flows and changes in equity of the Company in accordance with Indian Accounting Standards (Ind AS) prescribed under Section 133 of the Act, read with Companies (Indian Accounting Standards) Rules, 2015, as amended and other accounting principles generally accepted in India. This responsibility also includes maintenance of adequate accounting records in accordance with the provisions of the Act for safeguarding the assets of the Company and for preventing and detecting frauds and other irregularities; selection and application of appropriate accounting policies; making judgments and estimates that are reasonable and prudent; and design, implementation and maintenance of adequate internal financial controls, that were operating effectively for ensuring the accuracy and completeness of the accounting records, relevant to the preparation and presentation of the financial statements that give a true and fair view and are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management and Board of Directors are responsible for assessing the Company's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate the Company or to cease operations, or has no realistic alternative but to do so.

The Board of Directors is also responsible for overseeing the Company's financial reporting process.

Auditor's Responsibility for the Audit of Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with SAs will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with SAs, we exercise professional judgment and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error; design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances. Under section 143(3)(i) of the Act, we are also responsible for expressing our opinion on whether the Company has adequate internal financial controls with reference to financial statements in place and the operating effectiveness of such controls
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures in the standalone financial statements made by management and Board of Directors.
- Conclude on the appropriateness of management's and Board of Director use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events

or conditions that may cast significant doubt on the Company's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause the Company to cease to continue as a going concern.

- Evaluate the overall presentation, structure and content of the standalone financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

Materiality is the magnitude of misstatements in the financial statements that, individually or in aggregate, makes it probable that the economic decisions of a reasonably knowledgeable user of the financial statements may be influenced. We consider quantitative materiality and qualitative factors in (i) planning the scope of our audit work and in evaluating the results of our work; and (ii) to evaluate the effect of any identified misstatements in the financial statements.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

We also provide those charged with governance with a statement that we have complied with relevant ethical requirements regarding independence, and to communicate with them all relationships and other matters that may reasonably be thought to bear on our independence, and where applicable, related safeguards.

From the matters communicated with those charged with governance, we determine those matters that were of most significance in the audit of the standalone financial statements of the current period and are therefore the key audit matters. We describe these matters in our auditor's report unless law or regulation precludes public disclosure about the matter or when, in extremely rare circumstances, we determine that a matter should not be communicated in our report because the adverse consequences of doing so would reasonably be expected to outweigh the public interest benefits of such communication.

Report on Other Legal and Regulatory Requirements

1. With respect to the matter to be included in the Auditor's Report under Section 197(16) of the Act:

In our opinion and according to the information and explanations given to us, the remuneration paid by the Company to its directors during the current year is in accordance with the provisions of Section 197 of the Act.  - iii. There has been no delay in transferring amounts required to be transferred to the Investor Education and Protection Fund;
 - iv. a) The management has represented that, to the best of its knowledge and belief, no funds have been advanced or loaned or invested (either from borrowed funds or share premium or any other sources or kind of funds) by the Company to or in any other persons or entities, including foreign entities ("Intermediaries"), with the understanding, whether recorded in writing or otherwise, that the Intermediary shall:
 - directly or indirectly lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Company or
 - provide any guarantee, security or the like to or on behalf of the Ultimate Beneficiaries.
- (b) The management has represented, that, to the best of its knowledge and belief, no funds have been received by the Company from any persons or entities, including foreign entities ("Funding Parties"), with the understanding, whether recorded in writing or otherwise, that the Company shall:
- directly or indirectly, lend or invest in other persons or entities identified in any manner whatsoever ("Ultimate Beneficiaries") by or on behalf of the Funding Party or
 - provide any guarantee, security or the like from or on behalf of the Ultimate Beneficiaries; and
- (c) Based on such audit procedures as considered reasonable and appropriate in the circumstances, nothing has come to our notice that has caused us to believe that the representations under sub-clause (iv) (a) and (iv) (b) contain any material mis-statement.
- v. The dividend declared or paid during the year by the Company is in compliance with Section 123 of the Act.

- b. In the absence of any fraud, there is no requirement to submit ADT-4 as prescribed under Rule 13 of Companies (Audit and Auditors) Rules 2014 with the Central Government.
- c. During the year under audit we have not received any complaints under whistle blower mechanism.

xii. Nidhi Companies:

In our opinion and according to the information and explanations given to us, the Company is not a Nidhi company. Accordingly, paragraph 3(xii) of the Order is not applicable.

xiii. Compliances with Sections 177 and 188 in case of transactions with related parties:

According to the information and explanations given to us and based on our examination of the records of the Company, transactions with the related parties are in compliance with sections 177 and 188 of the Act where applicable and details of such transactions have been disclosed in the financial statements as required by the applicable Indian Accounting Standards.

xiv. Internal Audit:

- a. Based on information and explanations provided to us and our audit procedures, in our opinion, the Company has an internal audit system commensurate with the size and nature of its business.
- b. We have considered the internal audit reports of the Company issued till date for the period under audit.

xv. Compliances with Sections 192 in case of non-cash transactions with Directors:

In our opinion and according to the information and explanations given to us, the Company has not entered into non-cash transactions with directors or persons connected to its directors and hence, provisions of Section 192 of the Companies Act, 2013 are not applicable to the Company. Accordingly, paragraph 3(xv) of the Order is not applicable.

xvi. Registration with RBI:

- a. The Company is not required to be registered under section 45-IA of the Reserve Bank of India Act 1934. Accordingly, clause 3(xvi)(a) of the Order is not applicable.

Annexure - B to the Auditors' Report

Report on the Internal Financial Controls under Clause (i) of Sub-section 3 of Section 143 of the Companies Act, 2013 ("the Act")

Opinion

We have audited the internal financial controls over financial reporting of **Sky Industries Limited** ("the Company") as of March 31, 2023 in conjunction with our audit of the financial statements of the Company for the year ended on that date.

In our opinion, the Company has, in all material respects, an adequate internal financial controls system over financial reporting and such internal financial controls over financial reporting were operating effectively as at March 31, 2023, based on the internal control over financial reporting criteria established by the Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls Over Financial Reporting issued by The Institute of Chartered Accountants of India.

Management's Responsibility for Internal Financial Controls

The Company's management and the Board of Director are responsible for establishing and maintaining internal financial controls based on the internal financial controls with reference to financial statements criteria established by The Company considering the essential components of internal control stated in the Guidance Note on Audit of Internal Financial Controls over Financial Reporting issued by The Institute of Chartered Accountants of India ('ICAI'). These responsibilities include the design, implementation and maintenance of adequate internal financial controls that were operating effectively for ensuring the orderly and efficient conduct of its business, including adherence to company's policies, the safeguarding of its assets, the prevention and detection of frauds and errors, the accuracy and completeness of the accounting records, and the timely preparation of reliable financial information, as required under the Companies Act, 2013.

Auditors' Responsibility

Our responsibility is to express an opinion on the Company's internal financial controls over financial reporting based on our audit. We have conducted our audit in accordance with the Guidance Note on Audit of Internal Financial Controls over Financial Reporting (the

"Guidance Note") and the Standards on Auditing, issued by ICAI and deemed to be prescribed under section 143(10) of the Companies Act, 2013, to the extent applicable to an audit of internal financial controls, both applicable to an audit of Internal Financial Controls and, both issued by The Institute of Chartered Accountants of India. Those Standards and the Guidance Note require that we comply with ethical requirements and plan and perform the audit to obtain reasonable assurance about whether adequate internal financial controls over financial reporting was established and maintained and if such controls operated effectively in all material respects.

Our audit involves performing procedures to obtain audit evidence about the adequacy of the internal financial controls system over financial reporting and their operating effectiveness. Our audit of internal financial controls over financial reporting included obtaining an understanding of internal financial controls over financial reporting, assessing the risk that a material weakness exists, and testing and evaluating the design and operating effectiveness of internal control based on the assessed risk. The procedures selected depend on the auditor's judgement, including the assessment of the risks of material misstatement of the standalone financial statements, whether due to fraud or error.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion on the Company's internal financial controls system over financial reporting.

Meaning of Internal Financial Controls with reference to Financial Statements

A company's internal financial controls with reference to financial statements is a process designed to provide reasonable assurance regarding the reliability of financial reporting and the preparation of financial statements for external purposes in accordance with generally accepted accounting principles. A company's internal financial controls with reference to financial statements include those policies and procedures that (1) pertain to the maintenance of records that, in reasonable detail, accurately and fairly reflect the transactions and dispositions of the assets of the company; (2) provide reasonable assurance that transactions are recorded as necessary to permit preparation of financial statements in accordance with generally accepted accounting principles, and that receipts and expenditures of the company are being made only in accordance with authorisations of management and

directors of the company; and (3) provide reasonable assurance regarding prevention or timely detection of unauthorised acquisition, use, or disposition of the company's assets that could have a material effect on the financial statements.

Inherent Limitations of Internal Financial Controls over Financial Reporting

Because of the inherent limitations of internal financial controls over financial reporting, including the possibility of collusion or improper management, override of controls, material misstatements due to error or fraud may occur and not be detected. Also, projections of any evaluation of the internal financial controls over financial reporting to future periods are subject to the risk that the internal

financial control over financial reporting may become inadequate because of changes in conditions, or that the degree of compliance with the policies or procedures may deteriorate.

NOTES TO FINANCIAL STATEMENT

FOR THE YEAR ENDED MARCH 31, 2023

1 CORPORATE INFORMATION

Sky Industries Limited is a Public limited incorporated and domiciled in India, under the Indian Companies Act, 1956. Its Equity shares are listed on BSE Limited. Its registered office is situated at C-58, TTC Industrial Area, Thane Belapur Road, Pawne, Navi Mumbai - 400 705.

The Company is engaged in manufacturing of "Narrow Woven Fabrics". The Company is engaged in manufacturing and marketing in various products like Hook and Loop Tape Fasteners, Value added items, Velvet tapes etc.

2 BASIS OF PREPARATION, MEASUREMENT AND SIGNIFICANT ACCOUNTING POLICIES

2.1) BASIS FOR PREPARATION OF ACCOUNTS

(a) Basis of preparation

These financial statements have been prepared in accordance with the Indian Accounting Standards (hereinafter referred to as the 'Ind AS') as notified by Ministry of Corporate Affairs pursuant to Section 133 of the Companies Act, 2013 read with Rule 3 of the Companies (Indian Accounting Standards) Rules, 2015 as amended from time to time.

The financial statements have been prepared on accrual and going concern basis. The accounting policies are applied consistently to all the periods presented in the financial statements. All assets and liabilities have been classified as current or non-current as per the Company's normal operating cycle and other criteria as set out in the Division II of Schedule III to the Companies Act, 2013. Based on the nature of products and the time between acquisition of assets for processing and their realisation in cash and cash equivalents, the Company has ascertained its operating cycle as 12 months for the purpose of current or non-current classification of assets and liabilities.

The financial statements are presented in INR, the functional currency of the Company. Items included in the financial statements of the Company are recorded using the currency of the primary economic environment in which the Company operates (the 'functional currency').

(b) Basis of Measurement

These financial statements are prepared under the historical cost convention unless otherwise indicated.

2.2) Key Accounting Estimates and Judgements

The preparation of financial statements requires management to make judgements, estimates and assumptions in the application of accounting policies that affect the reported amounts of assets, liabilities, income and expenses. Actual results may differ from these estimates. Continuous evaluation is done on the estimation and judgements based on historical experience and other factors, including expectations of future events that are believed to be reasonable. Revisions to accounting estimates are recognised prospectively.

Information about critical judgements in applying accounting policies, as well as estimates and assumptions that have the most significant effect to the carrying amounts of assets and liabilities within the next financial year, are included in the following notes:

(a) Measurement of defined benefit obligations

(b) Measurement and likelihood of occurrence of provisions and contingencies

- (c) Recognition of deferred tax assets
- (d) Measurement of Lease liabilities and Right of Use Asset (ROUA)

SIGNIFICANT ACCOUNTING POLICIES

2.3 REVENUE RECOGNITION

Revenue from contracts with customers is recognized on transfer of control of promised goods or services to a customer at an amount that reflects the consideration to which the Company is expected to be entitled to in exchange for those goods or services.

Revenue towards satisfaction of a performance obligation is measured at the amount of transaction price (net of variable consideration) allocated to that performance obligation. The transaction price of goods sold and services rendered is net of variable consideration on account of various discounts and schemes offered by the Company as part of the contract. This variable consideration is estimated based on the expected value of outflow. Revenue (net of variable consideration) is recognized only to the extent that it is highly probable that the amount will not be subject to significant reversal when uncertainty relating to its recognition is resolved.

a) Sale of Goods

Revenue from sale of products is recognized when the control on the goods have been transferred to the customer. The performance obligation in case of sale of product is satisfied at a point in time i.e., when the material is shipped to the customer or on delivery to the customer, as may be specified in the contract.

b) Rendering of services

Revenue of services are recognized when the services are rendered.

c) Dividend

Dividend income from investments is recognised when the shareholder's rights to receive payment have been established.

d) Interest Income

Interest income is accrued on a time proportion basis, by reference to the principal outstanding and the effective interest rate applicable.

e) Export Incentives

Export incentives under various schemes are accounted in the year of Exports.

2.4 FOREIGN CURRENCY TRANSACTIONS

a) Functional and Presentation Currency

The financial statements are presented in Indian Rupee (INR), which is Company's functional and presentation currency.

b) Initial Recognition

Transactions in foreign currencies are recorded at the exchange rate prevailing on the dates of the transactions. Exchange difference arising on foreign exchange transaction settled during the year are recognized in the Statement of profit and loss of the year.

c) Measurement of foreign currency items at the Balance sheet date

Monetary assets and liabilities denominated in foreign currencies are re-translated into functional currency at the exchange rate prevailing at the end of the reporting period. Non monetary assets and liabilities that are measured based on historical cost in a foreign currency are not re-translated. Exchange differences arising out of these transaction are charged to the profit and loss.

7 PROPERTY, PLANT AND EQUIPMENTS AND INTANGIBLE ASSETS

a) Property, plant and equipment (PPE)

i) Recognition and measurement

Freehold land is carried at cost. All other items of property, plant and equipment are measured at cost less accumulated depreciation and impairment losses, if any. Cost includes expenses directly attributable to the acquisition of the assets. The cost of an item of a PPE comprises its purchase price including import duty, and other non-refundable taxes or levies and any directly attributable cost of bringing the assets to its working condition of its intended use. Any trade discounts and rebates are deducted in arriving at the purchase price.

ii) Subsequent expenditure

Expenditure incurred on substantial expansion upto the date of commencement of commercial production are capitalised. Subsequent costs are included in the asset's carrying amount or recognised as a separate asset, as appropriate only when it is probable that future economic benefits associated with the item will flow to the Company and the cost of the item can be measured reliably. The carrying amount of any component accounted for as a separate asset is derecognised when replaced. All other repairs and maintenance are charged to profit or loss during the reporting period in which they are incurred.

b) Capital Work-In-Progress And Pre-Operative Expenses During Construction Period

Capital work-in progress includes expenditure directly related to construction and incidental thereto. The same is transferred or allocated to respective Property, Plant and Equipment on their completion / commencement of commercial production.

c) Intangible assets

Intangible assets are held on the balance sheet at cost less accumulated amortisation and impairment loss if any.

2.6 IMPAIRMENT OF NON- FINANCIAL ASSETS

The Company's non-financial assets other than inventories and deferred tax assets, are reviewed at each reporting date to determine whether there is an indication of impairment. If any such indication exists, then the asset's recoverable amount is estimated.

For impairment testing, assets that do not generate independent cash inflows are grouped together into cash-generating units (CGUs). Each CGU represents the smallest group of assets that generates cash inflows that are largely independent of the cash inflows of other assets or CGUs.

The recoverable amount of a CGU is the higher of its value in use and its fair value less costs to sell. Value in use is based on the estimated future cash flows, discounted to their present value using a discount rate that reflects current market assessments of time value of money and the risks specific to the CGU.

An impairment loss is recognised if the carrying amount of an asset or CGU exceeds its estimated recoverable amount. Impairment losses are recognised in the statement of profit and loss. Impairment losses recognised in respect of a CGU is allocated first to reduce the carrying amount of any goodwill allocated to the CGU, and then to reduce the carrying amount of the other assets of the CGU on a pro rata basis.

An impairment loss in respect of assets for which impairment loss has been recognized in prior periods, the Company reviews at reporting date whether there is any indication that the loss has decreased or no longer exists. An impairment loss is reversed if there has been a change in the estimates used to determine the recoverable amount. Such a reversal is made only to the extent that the asset's carrying amount does not exceed the carrying amount that would have been determined, net of depreciation or amortization, if no impairment loss had been recognized.

2.7 DEPRECIATION AND AMORTISATION

Depreciation is computed using Straight Line Method (SLM) over the useful lives of the assets as specified in Schedule II to the Companies Act, 2013. Lease hold land is amortised over the period of lease.

Useful lives of the items of Property, Plant and Equipment are as follows:

Asset	Estimated Useful Life
Building	30 Years
Plant & Machinery	15 Years
Furniture and Fixtures	10 Years
Vehicles	8 Years
Other equipment	6 Years

Intangible Assets are amortized over their individual estimated useful lives on a Straight Line basis, commencing from the year in which the same are available to the Company for its intended use. The useful life so determined is as follows:

Assets	Amortisation period
Software Licenses	3 Years

The management believes that the useful life as given above the best represent the period over which the management expects to use these assets.

The assets; residual values and useful lives are reviewed, and adjusted if appropriate, at the end of each reporting period.

Depreciation and amortization on property, plant and equipment added/disposed off during the year has been provided on pro-rata basis with reference to the date of addition/disposal.

Depreciation and amortization methods, useful lives and residual values are reviewed at the end of each reporting period and adjusted if appropriate.

2.8 FINANCIAL INSTRUMENTS

I. Financial Assets

a) **Classification of financial assets**

The Company classifies financial assets as subsequently measures at amortised cost, fair value through other comprehensive income or fair value through profit & loss on the basis of its business model for managing the financial assets and the contractual cash flow characteristics of the financial assets.

i) **Debt instrument at amortised cost:**

A 'debt Instrument' is measured at the amortised cost if both the following conditions are met:

- The asset is held within a business model whose objectives is to hold assets for collecting contractual cash flow and
- Contractual terms of the asset give rise on specified dates to cash flow that are solely payments of principal and interest (SPPI) on the principal amount outstanding.

After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest rate (EIR) method. Amortised cost is calculated by taking into account any discount or premium and fees or cost that are an integral part of the EIR. Amortisation is included in finance income in the statement of profit and loss. The losses arising from impairment are recognised in the statement of profit and loss. The category generally applies to trade and other receivable.

ii) **Debt instrument at fair value through other comprehensive income (FVOCI):**

Assets that are held for collection of contractual cash flow and selling the financial assets, where the assets' cash flow represents solely payments of principal and interest are measuring at FVOCI, movements in the carrying amount are taken through OCI, except for the recognition of impairment gains or losses, interest revenue or foreign exchange gains and losses which are recognised in profit and loss. When the financial assets is derecognised, the cumulative gain or loss previously recognised in OCI is reclassified from equity to profit or loss and recognised in other gains/ (losses). Interest income from these financial assets is included in other income using the EIR method. The Company does not have any instruments classified as fair value through other comprehensive income (FVOCI).

iii) **Debt instrument measured at fair value through profit and loss (FVTPL):**

Assets that do not meet the criteria for amortised cost or FVOCI are measured at fair value through profit or loss. A gain or loss on a debt instrument that is subsequently measured at fair value through profit or loss and is not part of a hedging relationship is recognised in profit or loss and presented net in the statement of profit and loss within other gains/ (losses) in the period in which it arises. Interest income from these financial assets is included in other income.

iv) **Equity investments:**

Investment in associates are accounted using equity method.

All other equity investments which are in scope of Ind-AS 109 are measured at fair value. Equity instrument which are held for trading are classified as at FVTPL. For all other equity investments,

the Company has decided to classify the same either at FVOCI or FVTPL. The Company makes such election on an instrument-by-instrument basis. The classification is made on initial recognition and is irrevocable.

For equity investments classified as FVOCI, all fair value changes on the instruments, excluding dividend, are recognized in other comprehensive income (OCI). There is no recycling of the amounts from OCI to statement of profit and loss, even on sale of such investment.

Equity investments included within the FVTPL category are measured at fair value with all changes recognized in the Statement of profit and loss.

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

b) Initial recognition and measurement

All financial assets are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/minus transaction cost that are attributable to the acquisition of the financial assets.

Trade receivables are carried at original invoice price as the sales arrangements do not contain any significant financial component. Purchase or sales of financial assets that required delivery of assets within a time frame established by regulation or convention in the market place (regular way trades) are recognised on the trade date, i.e., the date that the Company commits to purchase or sell the assets.

c) Derecognition of financial assets

A financial asset (or, where applicable, a part of a financial asset or part of a Company of similar financial assets) primarily derecognised (i.e. removed from the Company's balance sheet) when :

- The rights to receive cash flows from the asset have expired, or
- The Company has neither transferred nor retained substantially all the risks and rewards of all the assets, but has transferred control of the assets.

When the Company has transferred its rights to receive cash flow from an asset or has entered into a pass-through arrangement, it evaluates whether it has transferred substantially all the risks and rewards of ownership. In such cases, the financial asset is derecognised. When it has neither transferred nor retained substantially all of the risks and rewards of the assets, nor transferred control of the assets, the Company continues to recognise the transferred asset to the extent of the Company's continuing involvement. In the case, the Company recognises and associated liability. The transferred asset and the associated liability are measured on a basis that reflect the rights and obligations that the Company has retained.

Continuing involvement that takes the form of a guarantee over the transferred asset is measured at the lower of the original carrying amount of the asset and maximum amount of consideration that the Company could be required to repay.

d) Impairment of financial assets

In accordance with Ind-AS 109, the Company applies Expected Credit Loss (ECL) model for measurement and recognition of impairment loss on following financial assets and credit risk exposure:

- Financial assets that are debt instruments, and are measured at amortised cost e.g., loan, debt security, deposits, and bank balance.
- Trade Receivables

The Company follows 'simplified approach' for recognition of impairment loss allowance on trade receivables which do not contain a significant financing component.

The application simplified approach does not require the Company to track change in risk. Rather, it recognises impairment loss allowance based on lifetime ECLs at each reporting date, right from its initial recognition. The Company uses a provision matrix to determine impairment loss allowance on the portfolio of trade receivable. The provision matrix based on its historically observed default rates over the expected life of the trade receivable and is adjusted for forward looking estimates. At every reporting date, historically observed default rate updated and change in the forward looking estimates are analysed.

II. Financial Liabilities and equity instruments

Debt and equity instruments issued by an entity are classified as either financial liability or as equity in accordance with substance of the contractual arrangements and the definition of a financial liability and an equity instrument.

a) Equity instruments:

An equity instrument is any contract that evidences a residual interest in the assets of an entity after deducting all of its liabilities. Equity instruments issued by an entity are recognised at the proceeds received, net of direct issue costs.

b) Financial liabilities :- Classification

Financial liabilities classified as FVTPL or other financial liabilities consists of derivative financial instruments, wherein the gain/losses arising from remeasurement of these Instruments of recognized in the statements of profit and loss. Other financial liability (including borrowings and trade and other payables) are subsequently measured at amortised cost using the effective interest method.

c) Initial recognition and measurement:

All financial liabilities are recognised initially at fair value and for those instruments that are not subsequently measured at FVTPL, plus/minus transaction cost that are attributable to issue of these instruments.

d) Derecognition

A financial liability is derecognized when the obligation under the liability is discharged or cancelled or expires. When an existing financial liability is replaced by another from the same lender on substantially different terms, or the terms of an existing liability are substantially modified, such an exchange or modification is treated as the derecognition of the original liability and the recognition of the new liability. The difference in the respective carrying amounts is recognised in the statement of Profit and Loss.

III. Fair Value

The Company determines the fair value of its financial instruments on the basis of the following hierarchy

- a) Level 1 : The fair value of financial instruments quoted in active markets is based on their quoted closing price at the balance sheet date. Examples include exchange traded commodity derivatives and other financial instruments in equity and debt securities which are listed in a recognised stock exchange.
- b) Level 2 : The fair value of financial instruments that are not traded in active markets is determined by using valuation techniques using observable market data. Such valuation techniques include discounted cash flows, standard valuation models based on market parameters for interest rates, yield curves or foreign exchange rates, dealer quotes for similar instruments and use of comparable arm's length transactions. For example, the fair value of forward exchange contracts, currency swaps and interest rate swaps is determined by discounting estimated future cash flows using a risk-free interest rate.
- c) Level 3 : The fair value of financial instruments that are measured on the basis of entity specific valuations using inputs that are not based on observable market data (unobservable inputs).

2.9 INVENTORIES

Inventories are stated at the lower of cost and net realizable value.

Cost of Raw Material is determined on a First In First Out (FIFO) basis.

Packing materials are valued at cost.

Finished goods are valued at cost or net realizable value whichever is lower. Cost comprises direct materials and where applicable, direct labour costs, those overheads but excluding borrowing cost that have been incurred in bringing the inventories to their present location and condition. Cost is arrived on weighted average cost basis.

Work in Progress is valued at cost or net realizable value whichever is less. Cost comprises direct materials and appropriate portion of direct labour costs, manufacturing overheads but excluding borrowing cost that have been incurred in bringing the inventories to their present location and condition.

2.10 BORROWING COSTS

Borrowing Costs that are interest and other costs that the Company incurs in connection with the borrowings of funds and is measured with reference to the effective interest rate applicable to the respective borrowing. Borrowing costs include interest cost measured at EIR and exchange difference arising from foreign currency borrowings to the extent they are regarded as an adjustment to the interest cost.

Borrowing Costs that are attributable to the acquisition or construction of qualifying assets are capitalised as part of the cost of such assets, wherever applicable, till the assets are ready for their intended use. Such capitalisation is done only when it is probable that the asset will result in future economic benefits and the costs can be measured reliably. Capitalisation of borrowing cost is suspended and charged to statement when active development is interrupted.

Capitalisation of borrowing costs commences when all the following conditions are satisfied:

- i. Expenditure for the acquisition, construction or production of a qualifying asset is being incurred;
- ii. Borrowing costs are being incurred; and
- iii. Activities that are necessary to prepare the asset for its intended use are in progress.

A qualifying asset is one which necessarily takes substantial period to get ready for intended use. All other borrowing costs are charged to revenue account.

2.11 EMPLOYEE BENEFITS

a) Short term employee benefit obligations

Liabilities for wages, salaries, including non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related services are recognised in respect of employee's services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are to be settled. The liabilities are presented as current employee benefit obligations in the balance sheet.

b) Other long term employee benefit obligations

i) Compensated absences

The liabilities for earned leave is not expected to be settled wholly within 12 months after the end of the period in which employees render the related service. Therefore they are measured as the present value of expected future payments to be made in respect of services provided by employees up to the end of reporting period using the projected unit credit method. The benefits are discounted using the market yield at the end of reporting period that have terms approximating to the terms of related obligation. Remeasurement as a result of experience adjustments and changes in actuarial assumptions are recognised in the other comprehensive income.

c) Post-employment obligations

The Company operates the following post-employment schemes:

- A. Defined benefit plans such as Gratuity
- B. Defined contribution plan such as Provident Fund

Defined Benefit Plans

The liability or asset recognised in the balance sheet in respect of defined benefit gratuity plans is present value of the defined benefit obligation at the end of the reporting period less the fair value of plan assets. The defined benefit is calculated annually by actuaries using the projected unit credit method.

The present value of the defined benefit obligations is determined by discounting the estimated future cash outflows by reference to market yields at the end of the reporting period on government bonds that have terms approximating to the terms of the related obligation.

The net interest cost is calculated by applying the discount rate to the net balance of the defined benefit obligation and the fair value of plan assets. This cost is included in employee benefit expenses in the statement of profit and loss.

Remeasurement gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in the period in which they occur, directly in other comprehensive income. They are included in retained earnings in the statement of changes in equity and in the balance sheet.

Changes in present value of the defined benefit obligation resulting from plan amendment or curtailments are recognised immediately in profit or loss as past service cost.

Defined Contribution Plans

The Company pays provident fund contributions to publicly administered funds as per the local regulations. The Company has no further payment obligations once the contributions have been paid. The contributions are accounted for as defined contribution plans and the contributions are recognised as employee benefit expenses when they are due. Contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payment is available.

Share Based Payments

Employees of the Company receive remuneration in the form of share-based payments in consideration of the services rendered. Under the equity settled share based payment, the fair value on the grant date of the awards given to employees is recognised as 'employee benefit expenses' with a corresponding increase in equity over the vesting period. The fair value of the options at the grant date is calculated by an independent valuer basis Black Scholes model. At the end of each reporting period, apart from the non-market vesting condition, the expense is reviewed and adjusted to reflect changes to the level of options expected to vest. When the options are exercised, the Company issues fresh equity shares.

For cash-settled share-based payments, the fair value of the amount payable to employees is recognised as 'employee benefit expenses' with a corresponding increase in liabilities, over the period of non-market vesting conditions getting fulfilled. The liability is remeasured at each reporting period up to, and including the settlement date, with changes in fair value recognised in employee benefits expenses

2.12 ACCOUNTING FOR TAXES ON INCOME

a) Income Taxes

The income tax expense or credit for the period is the tax payable on the current period's taxable income based on the applicable income tax rate for each jurisdiction adjusted by changes in Deferred Tax Assets and Liabilities attributable to temporary differences and to unused tax losses.

The current income tax charge is calculated on the basis of the tax laws enacted or substantively enacted at the end of the reporting period i.e. as per the provisions of the Income Tax Act, 1961, as amended from time to time. Management periodically evaluates positions taken in tax returns with respect to situations in which applicable tax regulation is subject to interpretation. It establishes provisions where appropriate on the basis of amounts expected to be paid to the tax authorities.

Current income tax assets and liabilities are measured at the amount expected to be recovered from or paid to the taxation authorities, based on the rates and tax laws enacted or substantively enacted, at the reporting date in the country where the Company operates and generates taxable income. Current tax items are recognised in correlation to the underlying transaction either in OCI or directly in equity.

Current tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) Intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously."

b) Deferred Taxes

Deferred tax is recognised in respect of temporary differences between the carrying amounts of the assets and liabilities for financial reporting purposes and the corresponding amounts used for taxation purpose

Deferred tax assets are recognised for unused tax losses, unused tax credits and deductible temporary differences only if it is probable that future taxable profits will be available against which they can be used. Deferred tax assets are reviewed at each reporting date and are reduced to the extent that it is no longer probable that the related tax benefits will be realised; such reductions are reversed when the probability of future taxable profits improves.

Unrecognised deferred tax assets are reassessed at each reporting date and recognised to the extent that it has become probable that future taxable profits will be available against which they can be used.

Deferred tax is measured at the tax rates that are expected to be applied to temporary differences when they reverse, using tax rates enacted or substantially enacted at the reporting date.

Deferred Tax Assets and Liabilities are offset when there is a legally enforceable right to offset current tax assets and liabilities and when the deferred tax balances relate to the same taxation authority. Current tax assets and tax liabilities are offset where the Company has a legally enforceable right to offset and intends either to settle on a net basis, or to realise the asset and settle the liability simultaneously.

Current and Deferred Tax is recognised in the Statement of Profit and Loss, except to the extent that it relates to items recognised in other comprehensive income or directly in equity. In this case, the tax is also recognised in other comprehensive income or directly in equity, respectively.

The carrying amount of Deferred Tax Assets is reviewed at each reporting date and reduced to the extent that it is no longer probable that sufficient taxable profit will be available to allow all or part of the Deferred Tax Asset to be utilised. Unrecognised Deferred Tax Assets are re-assessed at each reporting date and are recognised to the extent that it has become probable that future taxable profits will allow the deferred tax asset to be recovered.

Deferred tax assets and liabilities are offset only if, the Company :

- i) has legally enforceable right to set off the recognised amounts; and
- ii) the deferred tax assets and the deferred tax liabilities relate to income taxes levied by the same taxation authority on the same taxable entity."

2.13 PROVISIONS AND CONTINGENT LIABILITIES

a) Provisions

Provisions are recognised when the Company has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation. When the Company expects some or all of a provision to be reimbursed, for example, under an insurance contract, the

reimbursement is recognised as a separate asset, but only when the reimbursement is virtually certain. The expense relating to a provision is presented in the Statement of Profit and Loss net of any reimbursement. Provisions are not recognised for future operating losses.

Provisions are measured at the present value of management's best estimate of the expenditure required to settle the present obligation at the end of the reporting period. The discount rate used to determine the present value is a pre-tax rate that reflects current market assessments of the time value of money and the risks specific to the liability. The increase in the provision due to the passage of time is recognised as interest expense.

b) Contingent Liability

Contingent liabilities are not provided for and if material, are disclosed by way of notes to accounts. Contingent Liability is disclosed in the case of:

- i. A present obligation arising from the past events, when it is not probable that an outflow of resources will be required to settle the obligation;
- ii. A present obligation arising from the past events, when no reliable estimate is possible;
- iii. A possible obligation arising from the past events, unless the probability of outflow of resources is remote.

2.14 EARNING PER SHARE

a) Basic Earnings Per Share

Basic Earnings Per Share is calculated by dividing the profit attributable to owners of the Company by the weighted average number of equity shares outstanding during the period. Earnings considered in ascertaining the Company's earnings per share is the net profit for the period after deducting preference dividends, if any, and any attributable distribution tax thereto for the period.

2.15 CASH AND CASH EQUIVALENTS

Cash Flows are reported using the indirect method, whereby profit before tax is adjusted for the effects of transactions of a non-cash nature, any deferrals or accruals of past or future operating cash receipts or payments and item of income or expenses associated with investing or financing Cash Flows. The cash flows from operating, investing and financing activities of the Company are segregated.

Cash and cash equivalents for the purpose of Cash Flow Statement comprise cash and cheques in hand, bank balances, demand deposits with banks where the original maturity is three months or less and other short term highly liquid investments net of bank overdrafts which are repayable on demand as these form an integral part of the Company's cash management.

2.16 DIVIDEND

The Company recognises a liability for dividends to equity holders of the Company when the dividend is authorised and the dividend is no longer at the discretion of the Company. As per the corporate laws in India, a dividend is authorised when it is approved by the shareholders. A corresponding amount is recognised directly in equity.

2.17 ROUNDING OFF

All amounts disclosed in the financial statements and notes have been rounded off to the nearest Lakhs, unless otherwise stated.

2.18 EVENTS OCCURRING AFTER THE REPORTING DATE

Adjusting events (that provides evidence of condition that existed at the balance sheet date) occurring after the balance sheet date are recognized in the financial statements. Material non adjusting events (that are inductive of conditions that arose subsequent to the balance sheet date) occurring after the balance sheet date that represents material change and commitment affecting the financial position are disclosed in the Directors' Report.

2.19 EXCEPTIONAL ITEMS

Certain occasions, the size, type or incidence of an item of income or expense, pertaining to the ordinary activities of the Company is such that its disclosure improves the understanding of the performance of the Company, such income or expense is classified as an exceptional item and accordingly, disclosed in the notes accompanying to the financial statements.

2.20 OPERATING CYCLE

All assets and liabilities have been classified as current or non-current as per each Company's normal operating cycle and other criteria set out in the Schedule III to the Act.

2.21 SEGMENT REPORTING

As the Company has only one primary business activity, Segment reporting is not applicable.

2.22 LEASES

As a lessee:

The Company recognizes a right-of-use asset (ROU) and a corresponding lease liability for all lease arrangements in which it is a lessee, except for leases with a term of twelve months or less (short-term leases) and low value leases. For these short-term and low value leases, the Company recognizes the lease payments as an operating expense on a straight-line basis over the term of the lease. Certain lease arrangements includes the options to extend or terminate the lease before the end of the lease term. ROU assets and lease liabilities includes these options when it is reasonably certain that they will be exercised.

The right-of-use assets are initially recognized at cost, which comprises the initial amount of the lease liability adjusted for any lease payments made at or prior to the commencement date of the lease plus any initial direct costs less any lease incentives.

They are subsequently measured at cost less accumulated depreciation and impairment losses.

Right-of-use assets are depreciated from the commencement date on a straight-line basis over the shorter of the useful life of the asset or the balance lease term of the underlying asset. Right of use assets are evaluated for recoverability whenever events or changes in circumstances indicate that their carrying amounts may not be recoverable.

The lease liability is initially measured at amortized cost at the present value of the future lease payments. The lease payments are discounted using the interest rate implicit in the lease or, if not readily determinable, using

the incremental borrowing rates in the country of domicile of the leases. Lease liabilities are re-measured with a corresponding adjustment to the related right of use asset if the Company changes its assessment if whether it will exercise an extension or a termination option.

Lease liability and ROU asset shall be separately presented in the Balance Sheet and lease payments shall be classified as financing cash flows.

2.23 STANDARDS ISSUED BUT NOT YET EFFECTIVE

Fair valuation of financial assets and liabilities with short term maturities is considered as approximate to respective carrying amount due to the short term maturities of these instruments.

(b) Fair value hierarchy

The fair value hierarchy is based on inputs to valuation techniques that are used to measure fair value that are either observable or unobservable. Below are the fair value measurement hierarchy of the Company's assets and liabilities.

Level 1 - Inputs are quoted prices (unadjusted) in active markets for identical assets or liabilities.

Level 2 - Inputs are other than quoted prices included in Level 1 that are observable for the assets or liabilities, either directly (i.e. as prices) or indirectly (i.e. derived from prices)

Level 3 - Inputs for assets or liabilities that are not based on observable market data (unobservable inputs).

The Financial Instruments included in Level 2 of fair value hierarchy have been valued using quotes available for similar assets and liabilities in the active market.

The financial instruments included in Level 3 of Fair Value Hierarchy have been valued using whole or in part using a valuation model based on assumptions as described below:

Costs of certain unquoted equity instruments has been considered as an appropriate estimate of fair value because of a wide range of possible fair value measurements and cost represents the best estimate of fair value within that range.

There are no transfers between any of the fair value during the year under consideration.

- (i) The following table provides the fair value hierarchy of assets and liabilities measured at fair value on a recurring basis as at year end:

Particulars	As at March 31, 2023	As at March 31, 2022
Financial assets		
Level 1		
Investments in mutual funds units	685.98	639.76
	685.98	639.76

Measurement of Fair Values:

The fair value of the financial assets and liabilities is included at the amount at which the instrument could be exchanged in a current transaction between willing parties, other than in a forced or liquidation sale. The following methods and assumptions were used to estimate the fair values:

- The fair values of investment in mutual fund is the N.A.V as on the reporting date of balance sheet.
- The fair values of loans given and security deposit given is estimated by discounting cash flows using rates currently available for instruments with similar terms, credit risks and remaining maturities. Management regularly assesses a range of reasonably possible alternatives for those significant observable inputs and determines their impact on the total fair value.

37 Financial Risk Management

The Company is exposed to various financial risks majority credit risk, liquidity risk and market risk. The Company's senior management oversees the management of these risks with an objective to minimise the impact of these risks based on charters and informal policies.

(a) Market Risk:-

Market risk is the risk of loss of future earnings, fair values or future cash flows that may result from a change in the price of a financial instrument. The value of a financial instrument may change as a result of changes in the interest rates, foreign currency exchange rates, equity prices and other market changes that affect market risk sensitive instruments. Market risk is attributable to all market risk sensitive financial instruments including investments and deposits, foreign currency receivables, payables and loans and borrowings. The objective of market risk management is to avoid excessive exposure in our foreign currency revenues and costs.

(a) (i) Market Risk - Interest Rate Risk

Interest rate risk is the risk that the fair value of future cash flows of the financial instruments will fluctuate because of changes in market interest rates. The Company's exposure to the risk of changes in market interest rates primarily to the Company's borrowings, both short term and long term obligations with floating interest rates.

The Company is also exposed to interest rate risk on its financial assets that include fixed deposits (which are part of cash and bank balances) since all these are generally for short durations, there is no significant interest rate risks pertaining to these deposits

Exposure to Interest Rate Risk

Particulars	As at March 31, 2023	As at March 31, 2022
Fixed-rate instruments		
Financial Liabilities - Borrowings	108.70	170.63
Total	108.70	170.63

Sensitivity analysis to interest rate risk

The Company doesn't account for any fixed rate financial assets or financial liabilities at fair value through profit or loss. Therefore, a change in interest rates at the reporting date would not affect profit or loss.

(a) (ii) Market Risk - Price Risk

Other price risk is the risk that the fair value of a financial instrument will fluctuate due to changes in market traded price.

Exposure to Currency risk

The Company is mainly exposed to the price risk due to its investment in equity based mutual funds. At 31st March 2023, the investments in mutual fund (at market value) amounts to ₹ 401.69 Lakhs (31st March, 2022 : ₹ 367.30 Lakhs). These are exposed to price risk.

The Company does make deposit with the banks as margin money against the borrowing facility provided by the banks. Deposit is made in fixed rate instrument. In view of this it is not susceptible to market price risk, arising from changes in interest rates or market yields which may impact the return and value of the investments.

Sensitivity analysis to price risk

A 3% movement in prices would have led to the following pre-tax impact in the statement of profit and loss.

Financial Instrument	Increase / (Decrease) in Profit			
	As at March 31, 2023		As at March 31, 2022	
	3% increase	3% decrease	3% increase	3% decrease
Investment in Mutual Funds	12.05	(12.05)	11.02	(11.02)
Total	12.05	(12.05)	11.02	(11.02)

(a) (iii) Market Risk - Currency Risk

The fluctuation in foreign currency exchange rates may have a potential impact on the statement of profit and loss and equity, where any transaction references more than one currency or where assets/liabilities are denominated in a currency other than the functional currency of the Company. The Company is exposed to currency risk on account of its trade payables in foreign currency. The functional currency of the Company is Indian Rupees. The Company follows a natural hedge driven currency risk mitigation policy to the extent possible

Exposure to Currency risk

The summary quantitative data about the Company's exposure to currency risk are reported to management of the Company are as follows:

Particulars	Foreign Currency	in foreign currency	
		As at March 31, 2023	As at March 31, 2022
Financial Assets			
Trade receivables	USD	1,01,305	83,761
Financial Liabilities			
Trade payables	USD	4,22,720	636,620

Sensitivity analysis to currency risk

A reasonable possible strengthening / (weakening) of the foreign currency at year end would have affected the measurement of above mentioned financial assets and financial liabilities denominated in foreign currencies and affected the equity and profit or loss by the amounts shown below. This analysis assumes that all other variables, in particular interest rates, remain constant and ignores any impact of forecast of sales and purchases.

Foreign Currency	Increase / (Decrease) in Profit			
	As at March 31, 2023		As at March 31, 2022	
	5% increase	5% Decrease	5% increase	5% Decrease
USD	(13.20)	13.20	(20.23)	20.23
Total	(13.20)	13.20	(20.23)	20.23

(b) Credit Risk

Credit Risk is the risk of financial loss to the Company if a customer or counterparty to a financial instrument fails to meet its contractual obligations, and arises principally from the Company's receivables from customers. The carrying amount of Financial Assets represents the maximum credit exposure.

Trade Receivables

The Company has established a credit policy under which each new customer is analysed individually for credit worthiness before the payment and delivery terms and conditions are offered. The Company's review includes external ratings, if they are available, financial statements, industry information, business intelligence and in some cases bank references.

Trade Receivables of the Company are typically unsecured, except to the extent of the security deposits received from the customers or financial guarantees provided by the market organizers in the business. Credit Risk is managed through credit approvals and periodic monitoring of the creditworthiness of customers to which the Company grants credit terms in the normal course of business. The Company performs ongoing credit evaluations of its customers' financial condition and monitors the creditworthiness of its customers to which it grants credit terms in the normal course of business. The Company has no concentration of Credit Risk as the customer base is geographically distributed in India.

Expected credit loss for trade receivable:

The allowance for impairment of Trade receivables is created to the extent and as and when required, based upon the expected collectability of accounts receivables. On account of adoption of Ind AS 109, the Company uses lifetime Expected Credit Loss (ECL) model for assessing the impairment loss. For this purpose, the Company uses a provision matrix to compute the expected credit loss amount for trade receivables. Loss rates are based on actual credit loss experience and past trends. The provision matrix takes into account external and internal credit risk factors and historical experience / current facts available in relation to defaults and delays in collection thereof

The movement of the expected loss provision (allowance for bad and doubtful loans and receivables etc.) made by the Company are as under:

Particulars	As at March 31, 2023	As at March 31, 2022
Opening balance of expected loss provision	8.87	4.53
Add : Provisions made / (reversed)	1.27	9.39
Less : Utilisation for impairment / de-recognition	-	5.04
Closing balance	10.14	8.87

Also refer note no. 40 to Trade Receivables

Other Financial Assets

The Company maintains its Cash and Cash equivalents and Bank deposits with banks having good reputation, good past track record and high quality credit rating and also reviews their credit-worthiness on an on-going basis.

Expected credit loss on financial assets other than trade receivable:

With regards to all financial assets with contractual cash flows other than trade receivable, management believes these to be high quality assets with negligible credit risk. The management believes that the parties from whom these financial assets are recoverable, have strong capacity to meet the obligations and where the risk of default is negligible and accordingly no provision for expected credit loss has been provided on such financial assets. Break up of financial assets other than trade receivables have been disclosed on balance sheet

Company's maximum exposure to credit risk as at March 31, 2023 and March 31, 2022 is the carrying value of each class of financial assets.

(c) Liquidity Risk

Liquidity Risk is the risk that the Company will face in meeting its obligation associated with its financial liabilities that are settled by delivering cash or another financial asset. The Company's approach in managing liquidity is to ensure, as far as possible, that it will have sufficient liquidity to meet its liabilities when due, under both normal and stressed conditions, without incurring unacceptable losses or risking damage to the Company's reputation. Any short term surplus cash generated, over and above the amount required for working capital and other operational requirements is retained as Cash and Cash Equivalents (to the extent required).

Exposure to Liquidity Risk

38 Retirement Benefits

(A) Defined benefit plan - Gratuity

The Company provides for gratuity benefit under a defined retirement scheme (the "Gratuity Scheme") as laid out by the Payment of Gratuity Act, 1972 of India covering eligible employees. The Gratuity Scheme provides for a lump sum payment to employees who have completed at least five years of service with the Company, based on salary and tenure of employment. Liabilities with regard to the Gratuity Scheme are determined by actuarial valuation carried out using the Projected Unit Cost Method by an independent actuary. The following tables set out the funded status majorly of the gratuity plans and the amounts recognized in the Company's financial statements as at March 31, 2023 and March 31, 2022.

44 Segment reporting

Operating segments are reported in a manner consistent with the internal reporting provided to the chief operating decision maker. The chief operating decision maker regularly monitors and reviews the operating results of the whole Company as one segment i.e. "manufacture and trading of narrow fabrics".

Thus, as defined in Ind AS 108 'Operating Segments', the Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the balance sheet and the statement of

profit and loss.

Thus, as defined in Ind AS 108 'Operating Segments', the Company's entire business falls under this one operational segment and hence the necessary information has already been disclosed in the balance sheet and the statement of profit and loss. Further, the entire business of the Company is within India, hence there is no geographical segment.
